## **DETAILED ACTION**

1. The Amendment filed February 19, 2004 has been received. According to the Amendment, claims 1 and 15 have been amended. Currently, claims 1-28 are pending in the application, wherein claims 2-4, 6-10, 12-14, 16-18, 20-24, and 26-28 have been previously withdrawn due to non-elected species. Claims 1, 5, 11, 15, 19, and 25 are hereby examined on the merits. Acknowledgment has been made.

2. The disclosure is objected to because of the following informalities:

In the specification, the recited term "Wagering data hub 12" (page 5, line 17) should be changed to "Wagering data hub 102" for consistency.

Appropriate correction is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 11, 15, and 25 are rejected under 35 U.S.C. 102(e) as being anticipated by Stronach (6,722,980).

Stronach teaches a method and system for recognizing a wagerer (game player) of an interactive wagering application implemented at least partially on user equipment

Application/Control Number: 09/827,657

Art Unit: 3713

comprising: user equipment (wagering terminal 120, Figs.2-4; 3:54-4:57, 13:66-14:19) configured for receiving racing data from a racing data provider (110, Fig.1), wherein at least a portion of the racing data originates from at least one race track where races corresponding to the racing data are being run (3:30-51; 8:23-50); allowing a wagerer to place a parimutuel wager on one of the races (4:43-57); and a wagering control system configured for selecting a wagerer, and determining if the wagerer is to be recognized (3:54-4:25; 5:63-6:62; 8:51-67); providing an incentive to the wagerer (game player) if the wagerer is determined to be recognized (10:66-11:14); and providing the incentive to the wagerer comprises providing a discount on wagering service, i.e., credit is a discount (10:66-11:5).

Page 3

- 5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 6. Claims 5 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stronach as applied to claims 1, 11, 15, and 25 above, and further in view of Acres et al. (6,364,768).

Stronach teaches all the limitations of claims 1, 11, 15, and 25 above. Stronach does not explicitly teach the limitation of determining if the to be recognized wagerer is a VIP (claims 5 and 19).

Acres et al., however, teaches a method and system for recognizing a wagerer (game player) of an interactive wagering application comprising: determining if the to be recognized wagerer is a VIP (8:35-61).

It would have been obvious to a person of ordinary skill in the art at the time of the invention was made to provide the player tracking system of Acres et al. to the interactive racing system and method of Stronach to provide a friendly interactive gambling environment to encourage frequent players to come back as well as attract new players thus increase profit.

- 7. Applicant's arguments with respect to claims 1, 5, 11, 15, 19, and 25 have been considered but are moot in view of the new ground(s) of rejection.
- 8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Application/Control Number: 09/827,657 Page 5

Art Unit: 3713

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Binh-An D. Nguyen whose telephone number is 703-305-5713. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrea Wellington can be reached on 703-308-2159. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
